

LePetitCafe — Bohrschablone Deckel (1:1, A4)

Blatt an Vorderkante + linke Kante des Deckels ausrichten. Papierkante = Bezugslinie, kein Rand nötig.

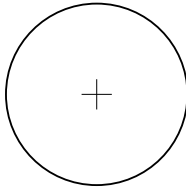

Loch-Ø 24mm ist Richtwert — vor dem Bohren mit der echten Mutter gegenchecken.

= genau 100mm? Sonst Druckskalierung auf 100% stellen.

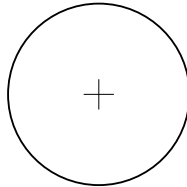

Die obere linke Ecke des Blatts selbst = Vorderkante + linke Kante des Deckels.
